

TextBooked

Student-to-Student Textbook Exchange iOS Application
Jordan Woods

Description

TextBooked is an iOS application that allows users to make an account and either post a textbook for sale or shop for a textbook posted by another user.

Goals

- Simplify & broaden the range of textbook exchanges
- Learn iOS development
- Create a full-stack application

Motivation

Textbook exchanges happen primarily on Facebook, which is not very efficient because posts are not organized and can get lost between other posts. TextBooked helps to organize and simplify this experience.

TextBooked

Technologies

Firebase: database & account capabilities
Swift & Xcode: iOS development
